Chairman's Statement

Looking ahead, we will remain subdued in 2016 against a difficult backdrop in the slowing pace of global economic recovery and the challenging environment which is likely to continue for some time. We are optimistic on our long term prospects and are fully committed to continue our current strategies and operational excellence to weather the challenges. Proactive refinement of the FX management and hedging strategies is also in progress to mitigate the exposure from the unforeseeable RMB volatility.

The Group is well positioned to capture the enormous opportunities ahead of us alongside the "Belt & Road Initiative" strategy implemented by the China government as a result of our unique points of leadership & differentiation in addition to diversified business portfolio with considerable synergies.

On behalf of the Board, I am grateful for the untiring support and trust of our shareholders, banks, customers, suppliers and our fellow Directors. I would also like to thank the management and staff for their dedication and contribution in the past year.

MANAGEMENT DISCUSSION AND ANALYSIS

RESULTS AND REVIEW OF OPERATIONS

Revenue of the Group declined 6.5% to HK\$2.7 billion for the year versus last year whose comparison was negatively distorted by the classification of High Fashion New Media Corporation Limited as joint venture from September 2014 to November 2015 where revenue is no long consolidated into the Group for most period of 2015.

Gross margin comparison versus last year has also been subjected to the same negative classification distortion. Underlying gross margin% of our core manufacturing business in 2015 managed to maintain at similar level as the year before despite the tough global trading environment while the brand business in US suffered a year-on-year decline in gross margin%.

Selling & distribution expenses and administrative expenses on the other hand was positively distorted by the above-mentioned classification. Underlying cost ratio (cost as a % of sales) of these two cost items together in 2015 managed to maintain at similar level last year in spite of escalating operating cost pressure in China.

Overall operating expenses for the year 2015 included also consultancy and project expenses on a number of different projects totalled HK\$27.4 million which is classified under “Other Expenses”.

Management Discussion and Analysis

The unexpected sharp depreciation of RMB in the second half of 2015 has also dragged down the reported profit in the year. Recognized gain and income from RMB contracts has been significantly reduced in 2015 versus last year while loss on fair value change of derivative financial instruments has been narrowed to HK\$23.4 million (2014: HK\$50.2 million). Increase in fair value of investment properties amounted to HK\$59.6 million in 2015, similar to the level recorded last year (HK\$56.8 million).

Net profit attributable to shareholders for the year ended 31 December 2015 landed at HK\$46 million compared to the profit of HK\$101 million in 2014. Basic earnings per share were HK\$0.15. Net asset value per share was HK\$7.3.

| | 2,678,240 | 2,864,787 | 101,137 | 192,079 |

Despite all the challenging macroeconomic conditions, the manufacturing and trading business continued to be the profit contributor of the Group while the brand business is in the process of restructuring.

Management Discussion and Analysis

LIQUIDITY AND FINANCIAL RESOURCES

The Group's total outstanding bank borrowings were decreased to HK\$1,365 million at the end of reporting period compared to HK\$2,195 million as at 31 December 2014. The decrease in bank borrowing was mainly due to refinement of our hedging strategies during the year in response to increased volatility of RMB. Our gearing ratio of non-current liabilities to shareholders' funds was only 9% at the end of reporting period. Current ratio has been maintained at a healthy level of 1.2.

The Group's total cash and bank balances were HK\$1,362 million at the end of reporting period compared to HK\$2,283 million as at 31 December 2014. Based on the ample banking facilities available, the Group had a strong working capital and liquidity to meet the operating needs and future growth.

The Group's trade receivables were mainly denominated in US dollar. Bank borrowings were denominated in US dollar and Hong Kong dollar. Since the Hong Kong dollar is pegged to the US dollar, the Group considers that its foreign exchange risk in this aspect is minimal. The Group has taken conservative approach to handle foreign currency risk with adequate hedging reserve. The Group had no borrowings at fixed interest rates during the year.

Barring the pledge of trade receivables and bills receivables of certain subsidiaries of HK\$19 million, there were no charges on the Group's assets.

Management Discussion and Analysis

ENVIRONMENTAL, SOCIAL AND CORPORATE RESPONSIBILITY

As a responsible corporation, the Group is committed to maintaining the highest environmental and social standards to ensure sustainable development of its business. The Group has complied with all relevant laws and regulations in relation to its business including health and safety, workplace conditions and employment and the environment. The Group understands a better future depends on everyone's customers, suppliers and other stakeholders to participate in environmental and social activities which benefit the community as a whole.

The Group maintains strong relationship with its employees, has enhanced cooperation with its suppliers and has provided high quality products and services to its customers so as to ensure sustainable development.

TAX AUDIT

The Inland Revenue Department (IRD) initiated a tax audit on certain group companies in February 2006 for the years of assessment from 1999/2000 onwards. The management is of the opinion that, in all the years, adequate Hong Kong tax provisions were made on the Hong Kong sourced income. Since the tax audit is still at a fact-finding stage, the outcome of the tax audit cannot be readily ascertained. After consulting with professional advisers, the management is of the opinion that the existing provisions are adequate.

HUMAN RESOURCES

The total number of employees of the Group including joint ventures as at the end of the reporting period was about 7,000. Other than the competitive remuneration package offered to the employees, share options may also be granted to selected employees based on the Group's performance. No share options were granted to employees during the year.

CAPITAL EXPENDITURE

The Group has purchased plant and equipment and leasehold improvement and construction in progress of around HK\$27 million in order to upgrade its manufacturing capabilities and environmental protection during the year. Except for the above, there was no material capital expenditure during the year.

CONTINGENT LIABILITIES

Please refer to note 47 for details of contingent liabilities at 31 December 2015.

Nomination, Appointment and Re-election of Directors

The Company has established the Nomination Committee with specific terms of reference in March 2012 and formal nomination procedures were adopted. Any nomination of directors will be reviewed and discussed by the Nomination Committee for his suitability on the basis of qualifications, experience and background. Suitable candidates will be recommended by the Nomination Committee to the Board for consideration of the appointment.

In accordance with the Company's Bye-Laws, newly appointed director(s) is/are required to retire and can offer themselves for re-election at the first general meeting following their appointment.

The Company's Bye-Laws provide that every Director shall be subject to retirement by rotation at least once every three years and that one-third (or the number nearest to one-third) of the Directors shall retire from office every year at annual general meeting of the Company. Retiring Directors are eligible for re-election.

In accordance with bye-law 87 of the Company's Bye-laws, Messrs. Lam Foo Wah, Wong Shiu Hoi, Peter and Leung Hok Lim will retire by rotation and, being eligible, offer themselves for re-election at the forthcoming annual general meeting of the Company to be held on 3 June 2016 ("2016 AGM").

None of the directors who are proposed for re-election at the forthcoming annual general meeting has a service contract with the Company which is not determinable by the Company within one year without payment of compensation, other than statutory compensation.

Pursuant to the code provision A.4.3 of CG Code, any further appointment of INED serving more than nine years should be subject to a separate resolution to be approved by shareholders. Mr. Wong Shiu Hoi, Peter and Mr. Leung Hok Lim are INEDs serving the Company since 2004. Mr. Wong and Mr. Leung have met the independence guidelines set out in Rule 3.13 of the Listing Rules and have made an annual confirmation of independence to the Company. The Board is satisfied that Mr. Wong and Mr. Leung who served the Company for more than nine years, remains independent, and considers that they would be able to continue to discharge their duties as an INED to the Company. Mr. Wong and Mr. Leung should be re-elected and separate resolution will be proposed for their re-election at the 2016 AGM.

During the financial year, each of the INEDs has made an annual confirmation of independence pursuant to Rule 3.13 of the Listing Rules. The Company considers that all INEDs meet the independence guidelines set out in Rule 3.13 of the Listing Rules and are independent.

Corporate Governance Report

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The positions of the Chairman of the Board (“Chairman”) and the Managing Director are held and performed by Mr. Lam Foo Wah, the same individual. The Board considers that the function of the Chairman and the Managing Director in the Company’s strategic planning and development process are overlapping and it may not be for the benefit of the Company to have separate individuals occupying these two offices given the conditions of the Group and its stage of development.

The Board, led by the Chairman, is responsible for the approval and monitoring of the Group’s overall strategies and policies; evaluating the performance of the Group; and oversight of management. One of the important roles of the Chairman is to provide leadership to the Board to ensure that the Board acts in the best interests of the Group. The Chairman ensures that the Board works effectively and performs its responsibilities, and that all key and appropriate issues are discussed by the Board in a timely manner. All Directors have been consulted about any matters proposed for inclusion in the agenda. The Chairman has delegated the responsibility for drawing up the agenda for each Board meeting to the Company Secretary.

Management is responsible for the day-to-day operations of the Group under the leadership of the Chairman who is also the Managing Director. The Managing Director, working with the other executive directors and the executive management team of each business division, is responsible for managing the businesses of the Group, including implementation of strategies adopted by the Board and assuming full accountability to the Board for the operations of the Group. All Directors have made full and active contribution to the affairs of the Board and it always acts in the best interests of the Group.

With the support from Executive Directors and the Company Secretary, the Chairman seeks to ensure that all Directors are properly briefed on issues arising at Board meetings and receives adequate and reliable information in a timely manner. Apart from the regular Board meetings, the Chairman hold meetings with the Non-executive Directors (including Independent Non-executive Directors) without the presence of Executive Directors.

Corporate Governance Report

BOARD COMMITTEES

The Board delegates its powers and authorities from time to time to committees in order to ensure the operational efficiency and specific issues are being handled by relevant expertise. Three board committees have been established and each of them has its specific duties and authorities setting out in its own terms of reference. ACCOUNTABILITY AND AUDIT

Financial Reporting

The Directors acknowledge their responsibility for preparing, with support from the Finance Department, the consolidated financial statements of the Group.

The Directors are responsible for keeping proper accounting records and preparing accounts of each financial period, which give a true and fair view of the state of affairs of the Group and of the results and cash flow for that period. In preparing the accounts for the year ended 31 December 2015, the Directors believe that they have selected suitable accounting policies and applied them consistently, made judgments and estimates that are prudent and reasonable, and ensured the financial statements are prepared on a “going concern” basis.

The final and interim results of the Company are announced in a timely manner within the limits of three months and two months respectively after the end of the relevant year or period.

A statement by the Auditor of the Company about their reporting responsibilities on the consolidated financial statements of the Group is set out in the Independent Auditor’s Report on pages 37 to 38.

Auditors’ Remuneration

The Group’s external auditor is Deloitte Touche Tohmatsu who perform audit and non-audit services for the year ended 31 December 2015. The Group paid or payable to Deloitte Touche Tohmatsu in respect of audit services fee of approximately HK\$3,680,000 and non-audit services fee of approximately HK\$2,102,000.

INTERNAL CONTROL

The Board has overall responsibilities for maintaining sound and effective internal control system of the Group. The Board conducts reviews of the effectiveness of the internal control system for the year ended 31 December 2015 covering all material controls, including financial, operational and compliance controls and risk management functions by considering reviews performed by the Audit Committee, executive management and both the group internal audit department and external auditor. The Group’s system of internal control comprises a defined management structure with limits of authority, is designed to help the achievement of business objectives, safeguard assets against unauthorised use or disposition, ensure the maintenance of proper accounting records for the provision of reliable financial information for internal use or for publication, and ensure compliance with relevant legislation and regulations.

The system is designed to provide reasonable, but not absolute, assurance against material misstatement or loss and to manage rather than eliminate risks of failure in operational systems and achievement of the Group’s objectives.

Corporate Governance Report

INTERNAL CONTROL (Cont'd)

The criteria for the Board to assess the effectiveness of the system of internal control are listed below:

(i) Organisational Structure

An organisational structure with operating policies and procedures, lines of responsibility and delegated authority has been already established.

(ii) Authority and Control

The relevant Executive Directors and senior management are delegated with respective levels of authorities with regard to key corporate strategy and policy and contractual commitments. The Board is responsible for handling and dissemination of price sensitive information through discussion and delegation of authority to the Company Secretary.

(iii) Budgetary Control and Financial Reporting

Budgets are prepared annually by the senior management and are subject to review and approval of the Executive Directors prior to being adopted. There are procedures for the appraisal, review and approval of major capital and recurrent expenditure. Results of operations against budgets are reported regularly to the Executive Directors. Proper controls are in place for the recording of complete, accurate and timely accounting and management information. Regular reviews and audits are carried out to ensure that the preparation of consolidated financial statements is carried out in accordance with generally accepted accounting principles, the Group's accounting policies and applicable laws and regulations.

(iv) Systems and Procedures

Systems and procedures are set to identify, measure, manage and control risks including business, compliance, operational, financial and information services risks that may have an impact on the Group and each principal division. Exposure to these risks is monitored by the Executive Directors and the management of the respective principal divisions.

(v) Internal Audit

The group internal audit department performs independent reviews of the controls and risks identified to provide reasonable assurance to management of the Company and principal divisions and the Audit Committee that controls have been set in place and adequately addressed.

Corporate Governance Report

INTERNAL CONTROL (Cont'd)

The group internal audit department monitors compliance with policies and procedures as well as the effectiveness of internal control structures across the Company and the Group. To preserve the independence of the group internal audit department, the group internal audit department reports directly to the Audit Committee. The group internal audit department plans its internal audit schedules annually in consultation with, but independent of, management of the Group and the principal divisions. In addition to its agreed annual schedule of work, the group internal audit department conducts other special reviews as required. As a key criterion of assessing the effectiveness of the internal control system, the Board and the Audit Committee actively monitor the number and seriousness of findings raised by the group internal audit department and also the corrective actions taken by relevant departments.

According to the 2015 internal audit reports, the Group's internal control system is functioning effectively and there was no significant weakness found in the course of the audits carried out during the year. The Board, through the Audit Committee and the internal audit function, has reviewed the effectiveness of the Group's internal control system and is of the view that there are no suspected frauds, irregularities, internal control deficiencies or suspected infringement of laws, rules and regulations that cause the Board to believe that the systems are ineffective or inadequate except to the extent of the dispute as referred to note 18 to the financial statements. The Board is satisfied that the Company and the Group have fully complied with the code provisions on internal control as set forth in the CG Code for the year ended 31 December 2015.

COMPANY SECRETARY

The Company Secretary is a full-time employee of the Company and has day-to-day knowledge of the Company's affairs. All Directors have access to the advice and services of the Company Secretary with a view to ensuring that Board procedures, and all applicable rules and regulations, are followed. For the year ended 31 December 2015, the Company Secretary has complied with Rule 3.29 of the Listing Rules by taking no less than 15 hours of relevant professional training.

TO THE MEMBERS OF HIGH FASHION INTERNATIONAL LIMITED

(incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of High Fashion International Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 39 to 127, which comprise the consolidated statement of financial position as at 31 December 2015, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Notes:

- (i) As stipulated by the relevant People's Republic of China ("PRC") laws and regulations, before distribution of the profit each year, the subsidiaries established in the PRC with limited liability shall set aside 10% of their net profit to the statutory surplus reserve. The statutory surplus reserve can only be used upon approval by the board of directors of the relevant subsidiaries and by the relevant authority, to offset accumulated losses or increase capital.
- (ii) Property revaluation reserve represents the revaluation reserve arising upon the transfer of owner-occupied property to investment property, net of deferred tax. The property revaluation reserve will be transferred to accumulated profits when the relevant properties are disposed of.
- (iii) Hedging reserve represents cumulative fair value changes of foreign exchange forward contracts and interest rate swaps designated as effective hedging instruments under cash flow hedges.
- (iv) Other reserve represents capitalisation of accumulated profits of a subsidiary as capital contribution to another subsidiary.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Cont’d)

New and revised HKFRSs in issue but not yet effective (Cont’d)

HKFRS 9 Financial instruments (Cont’d)

Key requirements of HKFRS 9 are described as follows:

- All recognised financial assets that are within the scope of HKAS 39 “Financial instruments: Recognition and measurement” are subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. All other debt investments and equity investments are measured at their fair values at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at FVTOCI. All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.
- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, HKFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability’s credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value of financial liabilities attributable to changes in the financial liabilities’ credit risk are not subsequently reclassified to profit or loss. Under HKAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss was presented in profit or loss.
- In relation to the impairment of financial assets, HKFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under HKAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.
- The new general hedge accounting requirements retain the three types of hedge accounting. However, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that qualify for hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the effectiveness test has been overhauled and replaced with the principle of an “economic relationship”. Retrospective assessment of hedge effectiveness is also no longer required. Enhanced disclosure requirements about an entity’s risk management activities have also been introduced.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Cont’d)

New and revised HKFRSs in issue but not yet effective (Cont’d)

HKFRS 9 Financial instruments (Cont’d)

The directors anticipate that the application of HKFRS 9 in the future may not have material impact on the Group’s current hedge designation and hedge accounting but may have an impact on the amounts reported in respect of the Group’s available-for sale investments. Specifically, HKFRS 9 requires available-for-sale equity investments to be measured at fair value with changes in fair value being accounted for either in the profit or loss or other comprehensive income. In addition, the application of HKFRS 9 may also result in early recognition of credit losses based on expected loss model in relation to the Group’s financial assets measured at amortised cost. However, it is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

HKFRS 15 Revenue from contracts with customers

In July 2014, HKFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. HKFRS 15 will supersede the current revenue recognition guidance including HKAS 18 Revenue, HKAS 11 Construction Contracts and the related interpretations when it becomes effective.

The core principle of HKFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under HKFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in HKFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by HKFRS 15.

In the opinion of the directors, it is not practicable to provide a reasonable estimate of the effect for the application of HKFRS 15 until a detailed review has been completed.

Except as disclosed above, the directors of the Company anticipate that the application of the other new and revised HKFRSs in issue but not yet effective will have no material impact on the results and financial position of the Group.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance (“CO”).

The disclosure requirements set out in the Listing Rules regarding annual accounts have been amended with reference to certain requirements of the provisions of the new Hong Kong Companies Ordinance (Cap 622) regarding preparation of accounts and directors’ reports and audits and to streamline with HKFRSs. Accordingly, the presentation and disclosure of information in the consolidated financial statements for the financial year ended 31 December 2015 have been changed to comply with these new requirements. Comparative information in respect of the financial year ended 31 December 2014 are presented or disclosed in the consolidated financial statements based on the new requirements. Information previously required to be disclosed under the predecessor CO or Listing Rules but not under the new CO or amended Listing Rules are not disclosed in these consolidated financial statements.

The consolidated financial statements have been prepared on the historical cost basis except for certain properties and financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. A fair value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. Fair value under HKFRS 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2, leasing transactions that are within the scope of HKAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 or value in use in HKAS 36.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Basis of consolidation (Cont'd)

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKAS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Interests in joint ventures

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of joint ventures are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of joint ventures used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in a joint venture is initially recognised in the consolidated statement of financial position at cost or deemed cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the joint venture. When the Group's share of losses of a joint venture exceeds the Group's interest in that joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Interests in joint ventures (Cont'd)

An investment in a joint venture is accounted for using the equity method from the date on which the investee becomes a joint venture. On acquisition of the investment in a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in a joint venture. When necessary, the entire carrying amount of the investment is tested for impairment in accordance with HKAS 36 "Impairment of assets" as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be a joint venture. The difference between the carrying amount of the joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the joint venture is included in the determination of the gain or loss on disposal of the joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that joint venture on the same basis as would be required if that joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

When a group entity transacts with a joint venture of the Group, profits and losses resulting from the transactions with the joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the joint venture that are not related to the Group.

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts received or receivable for goods sold in the normal course of business, net of discounts and sales related taxes.

Revenue from the sale of goods is recognised when the goods are delivered and title have passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

The Group's accounting policy for recognition of revenue from operating leases is described in the accounting policy for leasing below.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Leasing (Cont'd)

The Group as lessee

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs (see the accounting policy below). Contingent rentals are recognised as expenses in the periods in which they are incurred.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

Leasehold land and building

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating lease in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid lease payments" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis except for those that are classified and accounted for as investment properties under the fair value model.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Foreign currencies (Cont'd)

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rate prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of "translation reserve".

In relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates or joint arrangements that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of translating the operation to the functional currency of the Company attributable to the owners of the Company are reclassified to profit or loss. The cumulative amount of the exchange differences relating to that foreign operation that have been attributed to the non-controlling interests is derecognised, but is not reclassified to profit or loss. On the other hand, the cumulative amount of the exchange differences relating to translation to presentation currency, recognised in other comprehensive income and accumulated in the separate component of equity, is not subsequently reclassified from equity to profit or loss.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Retirement benefit costs

Payments to Mandatory Provident Fund Scheme and state-managed retirement benefit schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from “profit before taxation” as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profits. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and interests in joint ventures, except where the Group is able to control the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amounts of its assets and liabilities.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Taxation (Cont'd)

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as a deduction from the carrying amount of the relevant asset in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Property, plant and equipment

Property, plant and equipment including leasehold land and buildings held for use in the production or supply of goods, or for administrative purposes, other than construction in progress, are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Property, plant and equipment (Cont'd)

Depreciation is recognised so as to write off the cost of assets, other than construction in progress, less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation (including properties under construction for such purposes). Investment properties include land held for undetermined future use, which is regarded as held for capital appreciation purpose.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values. Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

Construction costs incurred for investment properties under construction are capitalised as part of the carrying amount of the investment properties under construction.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the property is derecognised.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development activities (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible asset is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is charged to profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible asset is measured at cost less accumulated amortisation and accumulated impairment losses (if any), on the same basis the intangible asset that is acquired separately.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Impairment losses on tangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a first-in, first-out method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Properties which are intended for sale after completion of development within the Group's normal operating cycle are stated at the lower of cost and net realizable value. Cost includes costs of land, development expenditure and other direct costs attributable to such properties. Such properties are recorded as properties under development under inventories. Net realizable value represents the estimated selling price less all anticipated costs of completion and costs to incur in marketing and selling the properties.

Notes to the Consolidated Financial Statements

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

The Group's financial assets include loans and receivables, financial assets at fair value through profit or loss ("FVTPL") and available-for-sale financial assets. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments.

Financial assets at FVTPL

Financial assets are classified as financial assets at FVTPL when it is a derivative that is not designated and effective as a hedging instrument; or it forms part of a contract containing one or more embedded derivatives, and HKAS 39 permits the entire combined contract to be designated as at FVTPL upon initial recognition.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in the profit or loss excludes any interest earned on the financial assets and is included in "other gains and losses" line item. Fair value is determined in the manner described in note 38.

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Financial instruments (Cont'd)

Financial assets (Cont'd)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including trade and bills receivables, deposits and other receivables, amounts due from joint ventures, short-term bank deposits and bank balances and cash) are carried at amortised cost using the effective interest method, less any impairment (see accounting policy on impairment of financial assets below).

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated as available-for-sale or not classified as loans and receivables or financial assets at FVTPL. The Group designated certain items of financial assets that are acquired for long term investments as available-for-sale financial assets.

Available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are measured at cost less any identified impairment losses at the end of each reporting period (see accounting policy on impairment of financial assets below).

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

For an available-for-sale equity investment, a significant or prolonged decline in the fair value of that investment below its cost is considered to be objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest and principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Financial instruments (Cont'd)

Financial assets (Cont'd)

Impairment of financial assets (Cont'd)

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments, observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss. Changes in the carrying amount of the allowance account are recognised in profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Financial instruments (Cont'd)

Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity instruments in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of a group entity after deducting all of its liabilities.

Financial liabilities at FVTPL

Financial liabilities are classified as financial liabilities at FVTPL when it is a derivative that is not designated and effective as a hedging instrument.

Financial liabilities at FVTPL are measured at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any interest paid on the financial liabilities.

Other financial liabilities

Other financial liabilities including trade payables, other payables, amounts due to joint ventures and an associate, bank overdraft and bank borrowings are subsequently measured at amortised cost, using the effective interest method.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Equity instruments

Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Financial instruments (Cont'd)

Derivative financial instruments and hedging

Derivatives are initially recognised at fair value at the date when derivative contracts are entered into and are subsequently remeasured to its fair value at the end of the reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

Hedge accounting

The Group designates certain derivatives as hedges of cash flow hedges, which are hedges of highly probable forecast transactions with external customers for foreign currency risk exposure and interest rate risk exposure associated with the Group's floating rate bank borrowings. For hedges of foreign currency exposure, the hedged item represents highly probable forecast transactions which are denominated in a currency other than the functional currency of respective group entities entering into the transactions and the foreign currency risk under the hedging arrangement will affect the profit or loss. For hedges of interest rate risk, the hedged item is the Group's floating rate bank borrowings and the risk being hedged represents the volatility in interest payments resulted from changes in interest rates.

At the inception of the hedging relationship, the Group documents the relationship between the hedging instrument and hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument that is used in a hedging relationship is highly effective in offsetting changes in cash flows of the hedged item.

Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognised in other comprehensive income and accumulated in hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss as other gains or losses.

Amounts previously recognised in other comprehensive income and accumulated in equity (hedging reserve) are reclassified to profit or loss in the periods when the hedged item is recognised in profit or loss, in the same line of the consolidated statement of profit or loss and other comprehensive income as the recognised hedged item.

Hedge accounting is discontinued when the Group revokes the hedging relationship, when the hedging instrument expire or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Financial instruments (Cont'd)

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

The Group derecognises financial liability when, and only when, the Group's obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Cont'd)

Critical judgements in applying accounting policies (Cont'd)

Deferred taxation on investment properties

For the purposes of measuring deferred tax liabilities arising from investment properties that are measured using the fair value model, the directors of the Company have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are held under a business model of which the objective is to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale. Therefore, in measuring the Group's deferred taxation on investment properties, the directors have determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is rebutted. As a result, the Group has recognised deferred taxes on changes in fair value of investment properties during the year to reflect the tax consequences through consuming the inherent economic benefits through use.

Classification of High Fashion New Media Corporation Limited as a subsidiary

Note 18 describes that High Fashion New Media Corporation Limited ("New Media") was classified as a joint venture of the Group as at 31 December 2014, irrespective of the Group's 65% ownership in New Media, as a result of the High Court order on 11 September 2014, which required unanimous consent from both the Group and the other party to the joint venture on the relevant activities of New Media. Such court order was released on 19 November 2015. The directors considered that the Group has re-established control over New Media since then, as the Group has sufficiently dominant voting interest to direct the relevant activities of New Media. See note 18 for further details.

Classification of Longford Information & Technology Co., Limited as a joint venture

Note 18 describes that Longford Information & Technology Co., Limited ("Longford") is classified as a joint venture of the Group despite that Longford is 100% owned by New Media, over which the Group re-established control since 19 November 2015.

In making the judgment, the directors considered the detailed criteria of control and joint control as set out in HKFRS 10 "Consolidated financial statements" and HKFRS 11 "Joint arrangements". The directors has also taken into consideration of the existing disputes with the legal representative of Longford, Ms. Mary Leong Ma Li ("Ms. Leong"), as well as the High Court decision under which the bank mandate of Longford had to be followed to the effect that one representative of New Media and Ms. Leong shall form joint signatories of the bank account and to operate it jointly. As a result of the High Court order, the directors concluded that the Group has joint control over Longford as decisions regarding the relevant activities require unanimous consent of both New Media and the legal representative of Longford, Ms. Leong, who is also the non-controlling shareholder of New Media.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Cont'd)

Key sources of estimation uncertainty

The followings are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Allowance for inventories

Management of the Group reviews aging analysis at the end of the reporting period, and makes allowance for obsolete and slow-moving inventory items identified that are not suitable for use in current production. Management estimates the net realisable value for such raw materials, work in progress and finished goods based primarily on the latest invoice prices and current market conditions. However, given the competitiveness of the industry, these prices may subsequently be affected. The Group carries out an inventory review on a product-by-product basis at the end of the reporting period and makes allowance for these items. At the end of the reporting period, the carrying amount of inventories was HK\$479,824,000 (2014: HK\$498,700,000).

Income taxes

The Hong Kong Inland Revenue Department (“IRD”) initiated a tax audit on certain group companies from the year of assessment 1999/2000 onwards. Since the tax audit is still at a fact-finding stage with different views being exchanged with the IRD, the outcome of the tax audit cannot be readily ascertained with reasonable accuracy. In cases where the tax charged by IRD is different from the estimated amounts, a material tax charge may arise (see note 10 for details). In the opinion of the directors, the provisions so made are adequate.

Allowance for trade receivables

Management of the Group reviews aging analysis, repayment history of its trade receivables and takes into consideration the estimation of future cash flows to determine allowance for trade receivables. The amount of impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. Where the actual future cash flows are less than expected, impairment loss may arise. As at 31 December 2015, the carrying amount of trade receivables was HK\$405,299,000 (net of allowance for doubtful debts of HK\$12,707,000) (2014: carrying amount of HK\$378,467,000, net of allowance for doubtful debts of HK\$23,814,000).

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Cont'd)

Key sources of estimation uncertainty (Cont'd)

Fair value of investment properties

Fair values of investment properties of the Group are quoted by independent qualified professional valuers. Upon application of HKFRS 13, the valuers have applied the highest and best use basis from the perspective of market participants. The valuation involves, inter-alia, certain estimates, including comparable market transactions, appropriate capitalisation rates and reversionary income potential and redevelopment potential. In relying on the valuation, management has exercised judgment and is satisfied that the method of valuation is reflective of the current market conditions. As at 31 December 2015, the carrying amount of investment properties was HK\$1,088,754,000 (2014: HK\$1,021,482,000).

Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise. During the year ended 31 December 2015, goodwill arising from deemed acquisition of New Media of HK\$35,253,000 was fully impaired. Details of the impairment loss calculation are set out in note 46.

5. REVENUE

Revenue represents the amount received and receivable for goods sold by the Group, net of discount and sales related tax. An analysis of the Group's revenue is as follows:

| | 2015 HK\$'000 | 2014 HK\$'000 |
|-------------------------------------|------------------|------------------|
| Manufacture and trading of garments | 2,462,319 | 2,497,293 |
| Brand business | 215,921 | 367,494 |
| | 2,678,240 | 2,864,787 |

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

6. SEGMENT INFORMATION

Information reported to the chief operating decision maker, the Group's executive directors, for the purposes of resource allocation and performance assessment, is analysed based on the types of goods sold, including (i) manufacture and trading of garments and (ii) brand business, representing sales of branded garments developed by the Group, which includes the results of the New Media Group.

The Group's operating and reporting segments are (i) manufacture and trading of garments and (ii) brand business.

Segment revenue and results

The following is an analysis of the Group's revenue and results by reportable and operating segment.

For the year ended 31 December 2015

| | Manufacture and trading of garments HK\$'000 | Brand business HK\$'000 | Segment total HK\$'000 | Eliminations HK\$'000 | Consolidated HK\$'000 |

| Finance costs | | | | | (68,838) |
| Profit before taxation | | | | | 123,241 |

Note: Inter-segment sales are charged at agreed terms set out in the subcontracting agreement entered into between group companies.

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 3. Segment profit represents the profit earned by each segment without allocation of finance costs. This is the measure reported to the Company's executive directors for the purposes of resources allocation and performance assessment. Furthermore, as the assets and liabilities for operating segments are not provided to the Company's executive directors for the purposes of resources allocation and performance assessment, no segment assets and liabilities are presented accordingly.

9. DIRECTORS' AND MANAGING DIRECTOR'S EMOLUMENTS AND EMPLOYEE'S EMOLUMENTS (Cont'd)

Directors' and Managing Director's emoluments (Cont'd)

The executive directors' emoluments are mainly for their services in connection to the management of the affairs of the Company and the Group, while the emoluments for non-executive directors and independent non-executive directors are mainly for their services as directors of the Company.

The performance related incentive payment is determined by reference to the individual performance of the directors and approved by the Remuneration Committee.

Mr. Lam Foo Wah is also the Managing Director of the Company and his emoluments disclosed above include those for services rendered by him as the Managing Director.

During both years, no emolument was paid by the Group to the directors as compensation for loss of office or an inducement to join or upon joining the Group. None of the directors has waived any emoluments in both years.

Employee's emoluments

Of the five individuals with the highest emoluments in the Group, four (2014: three) are directors whose emoluments are disclosed above. The emoluments of the remaining individual (2014: two individuals) are as follows:

| | 2015 HK\$'000 | 2014 HK\$'000 |
|--|------------------|------------------|
| Salaries and other benefits | 1,456 | 3,198 |
| Retirement benefits scheme contributions | 18 | 34 |
| Performance related incentive payments | 1,800 | 4,300 |
| | 3,274 | 7,532 |

The emoluments are within the following bands:

| | 2015 No. of employees | 2014 No. of employees |
|--------------------------------|-----------------------------|-----------------------------|
| HK\$3,000,001 to HK\$3,500,000 | 1 | 1 |
| HK\$4,000,001 to HK\$4,500,000 | - | 1 |

| | 13,768 | 30,900 |

The IRD has initiated a tax audit on certain group companies for the year of assessment from 1999/2000 onwards. As a matter of IRD's practice, the IRD has issued estimated/additional assessments ("Assessments") demanding for tax to the relevant group companies for the years of assessment 1999/2000 to 2008/2009. During the course of the tax audit, there is a possibility that estimated additional assessments for subsequent years will be issued by the IRD to these group companies.

Up to 31 December 2015, the Group has purchased tax reserve certificates of approximately HK\$144,300,000 (2014: HK\$134,094,000) for conditional standover order of objection against the Assessments for the year of assessment from 1999/2000 to 2008/2009 and the amount is included in tax recoverable.

Since the tax audit is still at a fact-finding stage with different views being exchanged with the IRD, the outcome of the tax audit cannot be readily ascertained with reasonable accuracy. Management has in the current year followed the same basis for making provision as adopted in prior years. In the opinion of the directors, the provisions so made are adequate for the purpose mentioned above.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

10. INCOME TAX EXPENSES (Cont'd)

Other than the tax audit, one of the companies of the Group has also purchased a tax reserve certificate of approximately HK\$753,000 (2014: HK\$753,000) for conditional standover order of objection against the Assessment for the year of assessment 2006/2007 and the amount is included in tax recoverable.

Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profit for both years.

Under the Law of the PRC on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% from 1 January 2008 onwards, except for High Fashion Silk (Zhejiang) Co., Ltd. which had been recognised as an advanced technology enterprise by the PRC Tax Bureau in 2015. The entity is subject to an income tax rate of 15% for three years starting from the year being recognised as an advanced technology enterprise.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdiction.

The income tax expenses for the year can be reconciled to the profit before taxation per the consolidated statement of profit or loss and other comprehensive income as follows:

| | 2015 HK\$'000 | 2014 HK\$'000 |
|---|------------------|------------------|

11. PROFIT FOR THE YEAR (Cont'd)

Notes:

- (i) The amounts have been arrived at before deducting net allowance for inventory obsolescence of HK\$3,059,000 (2014: net reversal of allowance for inventory obsolescence of HK\$7,426,000).
- (ii) Allowance for inventory obsolescence is written back when the relevant inventory is sold.
- (iii) Contingent rental expenses are determined based on a certain percentage of the gross sales of the relevant shops when the sales meet certain specified level.
- (iv) The amounts represent subsidies received from PRC government for the purposes of encouraging the Group to expand its business in the PRC. There are no conditions attached to the subsidies granted to the Group and the grants are not related to capital expenditures.
- (v) The Group had been in disputes with the relevant authority in USA on the customs duty and penalty imposed, on which full provision was made in the consolidated financial statements in prior years. During the current year, the relevant authority discharged its order and released the Group's obligation for the penalty payment. Accordingly, provision previously made was written back during the year.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

17. INVESTMENT PROPERTIES (Cont'd)

All of the Group's completed investment properties are held under operating leases to earn rentals or for capital appreciation purposes. They are measured using the fair value model and are classified and accounted for as investment properties.

Investment properties held for development represents a vacant land of HK\$108,333,000 (2014: HK\$108,176,000) located in the PRC. The Group has obtained the land use right certificate during the year ended 31 December 2015.

The fair value of the Group's investment properties at 31 December 2015 and 2014 have been arrived at on the basis of a valuation carried out by Centaline Surveyors Limited, 新昌信安達資產評估有限公司 and 深圳市戴德梁行土地房地產評估有限公司, which are independent qualified professional valuers not connected with the Group. Centaline Surveyors Limited are members of the Institute of Valuers and 新昌信安達資產評估有限公司 and 深圳市戴德梁行土地房地產評估有限公司 are certified public valuers in the PRC.

For the completed investment properties, the valuations were arrived at by making reference to market evidence of transaction prices for similar properties in similar locations and conditions or on the basis of capitalisation of net income with due allowance for the reversionary income and redevelopment potential. The net income is the market rentals of all lettable units of the properties and discounted at the market yield expected by investors for this type of properties. The market rentals are assessed by making reference to the rentals achieved in the lettable units of the properties as well as other lettings of similar properties in the neighbourhood. The discount rate is determined by making reference to the yields derived from analysing the sales transactions of similar properties in the relevant locations and adjusted to take into account the market expectation from property investors to reflect factors specific to the Group's investment properties.

For the investment properties held for development, for which management has yet to complete and obtain approval for building development plan, valuation was arrived at by making reference to comparable market sale and purchase transactions of vacant land, with relatively similar development potential.

For the investment properties under construction, residual method of valuation was adopted. The value is based on the development potential of the properties as if they were completed in accordance with the existing construction plan at the date of valuation. The value has also taken into consideration all costs of construction and expected developed profit margin, which has duly reflected the risks associated with the construction.

There has been no change in the valuation techniques used in the prior year.

In estimating the fair value of the completed properties, the highest and best use of the properties is their current use. In estimating the fair value of investment properties held for development/under construction, management has taken into account the highest and best use of the properties from the perspective of market participants, taking into account the future development potential of the properties.

For the year ended 31 December 2015

17. INVESTMENT PROPERTIES (Cont'd)

The Group's investment properties are categorised into level 3 of the fair value hierarchy. At the end of each reporting period, the chief financial officer ("CFO") works closely with the independent qualified professional valuers to establish and determine the appropriate valuation techniques and inputs to be used in determining the fair value of the investment properties. Discussions on valuation processes and results are held between CFO and the directors of the Company at least twice a year.

The following table shows the valuation techniques used in the determination of the fair values of investment properties and unobservable inputs used in the valuation models:

| Description | Fair value as at | | Valuation techniques | Unobservable inputs | Significant inputs | Relationship of inputs to fair value |

High Fashion New Media Corporation Limited and its subsidiaries (the “New Media Group”)

Included in interests in joint ventures at 31 December 2014 was an amount of HK\$2,939,000, representing the Group’s 65% equity interests in, and 67% voting power of, the New Media Group.

As disclosed in the consolidated financial statements for the year ended 31 December 2014, there were disputes amongst the Group, Hansen International Limited (“Hansen”), the non-controlling shareholder of New Media Group and an independent third party to the Company, Ms. Leong, the beneficial owner of Hansen and the chief executive officer of New Media, and Mr. Lam Foo Wah and Mr. Lam Gee Yu, Will, directors of New Media and directors of the Company, resulting in the Group’s inability to access the entire set of books and records of the New Media Group. Under the interim order (“New Media Order”) made by the High Court of the Hong Kong Special Administrative Region (“HKSAR”) on 11 September 2014, the Group handed over the finance chops and various items of Shenzhen Huijian Fashion Co. Ltd (“Huijian”), a major subsidiary of New Media, to Ms. Leong’s solicitor as stakeholder; and revised the bank mandate of Huijian to the effect that one representative from each of Hansen and the Group shall form joint signatories of the bank accounts to operate these bank accounts jointly. As a result of the New Media Order, the New Media Group had, at that time, become effectively jointly controlled by the Group and Hansen as decisions regarding the relevant activities of the New Media Group effectively required unanimous consent of both the Group and Hansen. Accordingly, the Group accounted for its interest in New Media as a joint venture since 11 September 2014. On 19 November 2015, the New Media Order was discharged and the finance chops and various items of Huijian which were previously held by Ms. Leong’s solicitor as stakeholder were released to the Group in November 2015. Accordingly, the Group accounted for the New Media Group as subsidiaries and consolidated them into the Group’s consolidated financial statements since 19 November 2015.

Longford

At 31 December 2015, included in interests in joint ventures is an amount of HK\$7,938,000 which represents New Media’s 100% investment in Longford. Longford was established in the PRC during the year ended 31 December 2014 by New Media with a registered capital of RMB30,000,000. The legal representative of Longford is Ms. Leong, who kept the company chops, books and records as well as other relevant documents of Longford since establishment.

On 26 September 2014, the High Court of the HKSAR made an interim order (“Longford Order”) to New Media, under which the bank mandate of Longford had to be followed to the effect that one representative of the Group and Ms. Leong shall form joint signatories of the bank account and to operate it jointly. As a result of the Longford Order, Longford has become effectively jointly controlled by New Media and Ms. Leong as decisions regarding the relevant activities of the Longford effectively required unanimous consent of both the Group and Ms. Leong starting from 26 September 2014. As the Longford Order has not been released as at 31 December 2015, Longford is accounted for as a joint venture of the Group as at 31 December 2015.

18. INTERESTS IN JOINT VENTURES (Cont'd)

Notes:

- (i) These joint ventures provide subcontracting services to the Group during both years.
- (ii) This joint venture aims to enter into the fashion market in France.
- (iii) The Group holds 51% of the registered capital and 60% voting power of Suzhou High Fashion and Silk Passion. However, under the terms of memorandum and articles of association of Suzhou High Fashion and joint venture agreement of Silk Passion, all significant events including operating and financial decisions must require unanimous consent by the Group and the other shareholder. Therefore, Suzhou High Fashion and Silk Passion are classified as joint ventures of the Group.
- (iv) These entities are subsidiaries of High Fashion New Media Corporation Limited.
- (v) The entity is a joint venture of the Group since 19 November 2015.

The consolidated summarised financial information of New Media Group is set out below:

| | 2015 HK\$'000 | 2014 HK\$'000 |

18. INTERESTS IN JOINT VENTURES (Cont'd)

In the opinion of the directors, joint ventures, other than the New Media Group, are not individually material to the Group for both years and therefore no separate disclosure on summarised financial information of these joint ventures is presented. The aggregate financial information of all individually immaterial joint ventures, including Longford for the period from 19 November 2015 to 31 December 2015, which are accounted for using the equity method is set out below:

| | 2015 HK\$'000 | 2014 HK\$'000 |
|--|------------------|------------------|
| Current assets | 65,418 | 40,506 |
| Non-current assets | 13,614 | 13,146 |
| Current liabilities | 51,318 | 16,445 |
| Income recognised in profit or loss | 46,535 | 47,566 |
| Expenses recognised in profit or loss | 62,408 | 49,290 |
| Group's share of losses of joint ventures for the year | 8,095 | 879 |

The Group has discontinued recognition of its share of losses of certain joint ventures. The amount of unrecognised share of results of these joint ventures is as follows:

| | 2015 HK\$'000 | 2014 HK\$'000 |
|--|------------------|------------------|
| Unrecognised share of losses of joint ventures for the year | 14 | 338 |
| Accumulated unrecognised share of losses of these joint ventures | 8,236 | 8,222 |

At the end of both reporting periods, the Group has no commitment to fund the losses in relation to its investments in any of the joint ventures.

19. AVAILABLE-FOR-SALE INVESTMENTS

| | 2015 HK\$'000 | 2014 HK\$'000 |
|--------------------------------------|------------------|------------------|
| Unlisted equity investments, at cost | 1,000 | 1,000 |
| Less: impairment loss recognised | (325) | (325) |
| | 675 | 675 |

The above unlisted investments represent investments in unlisted equity securities issued by a private entity in the British Virgin Islands. They are measured at cost less impairment at the end of the reporting period because the range of reasonable fair value estimates is so significant that the directors are of the opinion that it is not practical to obtain a reliable measurement of the fair values.

20. DEPOSIT PLACED AND PREPAYMENT OF PREMIUM FOR A LIFE INSURANCE

During the year ended 31 December 2010, the Group entered into a life insurance policy with an insurance company to insure an executive director. Under the policy, the beneficiary and policy holder is High Fashion Garments Management Limited ("HFGML"), a wholly owned subsidiary of the Company, and the total insured sum is approximately US\$10,000,000 (equivalent to HK\$77,500,000). HFGML paid a gross premium of US\$3,582,000 (equivalent to HK\$27,763,000), including a premium charge at inception of the policy amounting to US\$214,941 (equivalent to HK\$1,666,000). HFGML may request a partial surrender or full surrender of the policy at any time and receive cash back based on the cash value of the policy at the date of withdrawal, which is determined by the gross premium paid plus accumulated guaranteed interest earned and minus insurance premium charged at inception. In addition, if withdrawal is made between the 1st to 15th policy year, there is a specified surrender charge. At the inception date, the gross premium was separated into deposit placed and prepayment of life insurance premium. The prepayment of life insurance premium is amortised to profit or loss over the insured period and the deposit placed is carried at amortised cost using the effective interest method. The insurance company will pay HFGML a guaranteed interest rate of 5.2% per annum for the first year, followed by minimum guaranteed interest rate of 3% per annum for the following years.

The effective interest rate for the deposit placed on initial recognition is 4.61% per annum, which was determined by discounting the estimated future cash receipts through the expected life of the policy of 15 years, excluding the financial effect of surrender charge. At 31 December 2015, the expected life of the policy remained unchanged from the initial recognition and the directors considered that the financial impact of the option to terminate the policy was insignificant.

21. DERIVATIVE FINANCIAL INSTRUMENTS (Cont'd)

Cash flow hedges

Foreign exchange forward contracts

The Group designates foreign exchange forward contracts as highly effective hedging instruments in order to manage the Group's foreign currency exposure in relation to foreign currency highly probable forecast sales to end customers denominated in United States Dollars ("US\$") by entering into foreign exchange forward contracts to sell US\$ for RMB. Management considers the hedges from the Group's perspective are effectively hedging its sales to end customers.

At the end of the reporting period, the Group has outstanding foreign exchange forward contracts with an aggregate notional amount of US\$325 million (2014: US\$407 million) that require the Group to sell US\$ for RMB at exchange rates ranging from RMB6.192 to RMB6.74 (2014: RMB6.192 to RMB6.532) for US\$1 with maturity periods up to 24 months (2014: 36 months) from the end of the respective reporting periods. The terms of the foreign exchange forward contracts have been negotiated based on the estimation of the highly probable forecast sales.

As at 31 December 2015, the cumulative net fair value loss of approximately HK\$124,045,000 (2014: HK\$5,458,000) recognised in other comprehensive income and accumulated in hedging reserve is expected to be released to the profit or loss at various dates from January 2016 to December 2017 (2014: January 2015 to December 2017), the period in which the forecast sales are expected to take place. Included in the cumulative net fair value loss was HK\$42,146,000 (2014: HK\$30,016,000) cumulative loss that is expected to be reclassified to profit or loss in more than twelve months after the end of the reporting period.

During the year, the effective portion of cash flow hedges on foreign exchange forward contracts amounting to cumulative gain of HK\$32,235,000 (2014: HK\$69,160,000) is reclassified from other comprehensive income upon occurrence of the sales to end customers which affect profit or loss.

Interest rate swaps

The Group uses interest rate swaps to manage its exposure to volatility in interest payments relating to certain floating rate bank borrowings which linked to Hong Kong Interbank Offered Rate ("HIBOR"). The floating-to-fixed interest rate swaps lock the interest rates at rates ranging from 1.79% to 2.85% (2014: 1.46% to 2.66%) per annum. The interest rate swaps match the major terms of the hedged underlying bank borrowings such that management considers that the interest rate swaps are highly effective hedging instruments.

As at 31 December 2015, the fair value loss of HK\$266,000 (2014: HK\$433,000) of interest rate swap contracts has been recognised in other comprehensive income and accumulated in hedging reserve, and is expected to be released to profit or loss at various dates during the lives of the swaps when the hedged interest expenses are recognised and impact profit or loss. The aggregate notional amount of interest rate swap contracts is HK\$749,150,000 (2014: HK\$1,250,000,000) and will mature within one year after the end of the reporting period.

The effective portion of cash flow hedges on interest rate swaps amounting to cumulative loss of HK\$1,799,000 (2014: HK\$2,609,000) is reclassified from other comprehensive income to profit or loss and is included in finance costs during the year.

21. DERIVATIVE FINANCIAL INSTRUMENTS (Cont'd)

Other derivatives (not under hedge accounting)

Dual currency interest rate swap

The amount represents fair value of a dual currency interest rate swap. In accordance with the agreement, the Group shall pay fixed interest of 1% per annum on the notional amount of HK\$70 million on 20 January 2014 and 2.1% per annum annually from 20 January 2014 to 20 January 2019. In return, the Group shall receive floating interest at HIBOR on the notional amount of HK\$70 million quarterly from 20 April 2012 to 20 January 2019. In addition, the Group shall pay or receive interest on the notional amount of US\$9,014,000 annually based on the formula set out in the agreement, while the interest rate that the Group may be required to pay is capped as 2% per annum. The net fair value loss, including interim settlement during the year, of HK\$1,804,000 (2014: HK\$1,451,000) is recognised in profit or loss.

Foreign exchange forward contract

The amount represents fair value of a deliverable foreign exchange forward contract with notional amount of approximately US\$13 million (2014: nil) to sell US\$1 million for RMB at contracted rate of US\$1 for RMB6.4 on 29 March 2016. The fair value loss of HK\$3,730,000 is recognised in profit or loss.

Knock out forward contracts

The amount represents the fair value of knock out non-deliverable forward contracts with aggregate notional amount of US\$26 million (2014: US\$98 million) to sell US\$1 million or US\$0.5 million, on a monthly interval from January 2016 to February 2017 (2014: January 2015 to February 2017), for RMB at the contracted rates of US\$1 for RMB6.13 to RMB6.21 (2014: US\$1 for RMB6.13 to RMB6.21) where the spot rate on the settlement date is below or at the contracted rate. Where the spot rate is above the contracted rate, the Group has to sell double the amount of US\$ for RMB at the contracted rate. The contracts will be terminated when the cumulative spot rate at each settlement date exceeds the contracted forward rate by a specific amount set out in the agreements.

The net fair value loss, including the net loss on those contracts entered into and settled during the year, of HK\$13,863,000 (2014: HK\$43,181,000) is recognised in profit or loss.

Capped forward contracts

The amount represents fair value of capped forward contracts with aggregate notional amount of US\$7 million (2014: US\$25 million). The Group shall pay if the spot rate of RMB vs US\$ is above the upper contract rate or receive if the spot rate of RMB vs US\$ is below the lower contract rate specified in the relevant agreements on the settlement date. Where the spot rate is above the upper contract rate on the settlement date, the Group shall pay double the amount to respective banks. Where the spot rate falls within the upper and lower contract rates, no settlement will be required. The aforesaid upper and lower contract rates in the relevant agreements are RMB6.28 vs US\$1 and RMB5.98 to vs US\$1 (2014: RMB6.28 to RMB6.48 vs US\$1 and RMB5.98 to RMB6.44 vs US\$1) respectively. The contracts will be settled in various dates from January 2016 to July 2016 (2014: January 2015 to July 2016).

Notes to the Consolidated Financial Statements

21. DERIVATIVE FINANCIAL INSTRUMENTS (Cont'd)

Other derivatives (not under hedge accounting) (Cont'd)

Capped forward contracts (Cont'd)

The net fair value loss, including the net loss on those contracts entered into and settled during the year, of HK\$3,959,000 (2014: HK\$5,530,000) is recognised in profit or loss.

The above derivatives are measured at fair value at the end of the reporting period. Their fair values are determined based on the valuation carried out by financial institutions, which are measured using the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates and quoted forward exchange rates at the end of the reporting period. Details are set out in note 38.

The credit terms granted by the Group to its customers normally range from 30 days to 90 days.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

23. TRADE RECEIVABLES (Cont'd)

The aged analysis of the Group's trade receivables net of allowance for bad and doubtful debts is presented based on the invoice date at the end of the reporting period, which approximates the respective revenue recognition dates.

| | 2015 HK\$'000 | 2014 HK\$'000 |
|-----------------|------------------|------------------|
| Within 90 days | 384,569 | 362,861 |
| 91 to 180 days | 11,919 | 12,138 |
| 181 to 360 days | 4,238 | 1,269 |
| Over 360 days | 4,573 | 2,199 |
| | 405,299 | 378,467 |

The Group has policy of making allowance for bad and doubtful debts which is based on the evaluation of collectability and age of accounts and on management's judgement including credit worthiness and past collection history of each customer. Before accepting any new customer, the Group assesses the potential customer's credit quality and defines credit limits by customer. Credit limits attributed to customers are reviewed twice a year.

At the end of the reporting period, trade receivables with an aggregate carrying amount of HK\$345,385,000 (2014: HK\$299,445,000) are neither past due nor impaired for which management considers these amounts are of good credit quality.

Included in the Group's trade receivables balance are debtors with an aggregate carrying amount of HK\$59,914,000 (2014: HK\$79,022,000) which are past due at the end of the reporting period for which the Group has not provided for impairment loss. The directors of the Company believe that there is no further provision required in excess of the allowance of bad and doubtful debts as at the end of the reporting period. The average age of these receivables is 76 days (2014: 57 days).

Aging of trade receivables which are past due but not impaired:

| | 2015 HK\$'000 | 2014 HK\$'000 |
|----------------|------------------|------------------|
| Within 90 days | 49,113 | 74,472 |
| 91 – 180 days | 5,700 | 1,879 |
| 181 – 360 days | 2,974 | 775 |
| Over 360 days | 2,127 | 1,896 |
| Total | 59,914 | 79,022 |

Notes to the Consolidated Financial Statements

23. TRADE RECEIVABLES (Cont'd)

Movement in the allowance for doubtful debts

| | 2015 HK\$'000 | 2014 HK\$'000 |
|--|------------------|------------------|
| Balance at beginning of the year | 23,814 | 29,711 |
| Exchange adjustment | (190) | (182) |
| Impairment losses recognised on receivables (Note i) | 3,772 | 3,043 |
| Amounts written off as uncollectible (Note ii) | (11,616) | (4,025) |
| Amounts recovered during the year | (3,073) | (4,733) |
| Balance at end of the year | 12,707 | 23,814 |

Notes:

- (i) The impairment losses recognised on receivables are individual trade receivables that are past due at the end of the reporting date and management believes that these amounts are unlikely to be recoverable based on past collection history and credit worthiness of each customer. The Group does not have any collateral over these balances.
- (ii) The amounts written off as uncollectible are individually impaired trade receivables as the debtors are in severe financial difficulties.

24. BILLS RECEIVABLE

At the end of the reporting period, bills receivable of HK\$11,466,000 (2014: HK\$27,546,000) are aged within 90 days (2014: 180 days) from respective invoice dates. Included in the bills receivable are discounted bills with recourse of HK\$10,249,000 (2014: HK\$23,413,000), their corresponding financial liabilities are included in bank borrowings disclosed in note 32. Details relating to transfer of financial assets are set out in note 40.

25. DEPOSITS, PREPAYMENTS AND OTHER RECEIVABLES

Included in deposits, prepayments and other receivable is a deposit of RMB30,000,000 (equivalent to HK\$35,714,000) (2014: RMB30,000,000, equivalent to HK\$37,736,000) paid to the customs authority in Shaoxing City of Zhejiang Province in the PRC in relation to an ongoing enquiry of customs duty on imported accessories for manufacturing in the PRC factories. The Group has engaged legal and tax professionals to advise on the matter and assist the Group to respond to queries from the customs and legal authorities. In the opinion of the directors, the amount is expected to be recovered in twelve months and is therefore classified as a current asset.

At 31 December 2014, included in deposits, prepayments and other receivables was an entrusted loan receivable of RMB30,104,000 (equivalent to HK\$37,866,000) advanced to an independent third party through a bank in the PRC. The entrusted loan receivable carried fixed interest at fixed rate of 12% per annum and was fully repaid in April 2015.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

26. AMOUNTS DUE FROM AND TO JOINT VENTURES

The amounts due from and to joint ventures are unsecured, interest free and repayable on demand.

The amounts due from joint ventures represent receivable of HK\$27,762,000 (2014: HK\$702,000) which is non-trade in nature. At 31 December 2014, the amounts due from joint ventures also included receivable of HK\$119,706,000 from the New Media Group, HK\$15,003,000 of which was amounts due for sales of raw materials and finished goods to the New Media Group aged within 180 days.

At the end of the reporting period, the directors made an assessment of the recoverability of the amounts due from joint ventures based on the timing of the estimated future cash flows. Reversal of impairment losses of HK\$13,375,000 (2014: impairment loss of HK\$13,451,000) have been recognised in the consolidated financial statements in respect of the amounts due from New Media Group upon its deemed acquisition in November 2015 (see note 46).

The amounts due to joint ventures represent payable of HK\$1,773,000 (2014: HK\$621,000) for purchases of raw materials and finished goods aged within 90 days. At 31 December 2014, the amounts due to joint ventures also included payable of HK\$38,435,000 to the New Media Group which was non-trade in nature.

27. STRUCTURED DEPOSITS

The structured deposits are placed with banks in Hong Kong and the PRC and contain embedded derivatives, the returns of which are determined by reference to the change in certain exchange rates or interest rates quoted in the market. The structured deposits are designated as financial assets at FVTPL at initial recognition.

Major terms of the structured deposits at the end of the reporting period are as follows:

At 31 December 2015

| Principal amount | Maturity (Note i) | Annual coupon rate | Notes |
|------------------|------------------------|--------------------|-------|
| RMB326,000,000 | February – August 2016 | From 2.4% to 4.55% | (ii) |
| RMB122,000,000 | March – July 2016 | From 2.0% to 4.2% | (iii) |

At 31 December 2014

| Principal amount | Maturity (Note i) | Annual coupon rate | Notes |
|------------------|---------------------------|--------------------|-------|
| RMB284,000,000 | February – September 2015 | from 2.0% to 5.0% | (ii) |
| RMB331,500,000 | January – August 2015 | from 2.4% to 4.5% | (iii) |
| RMB40,000,000 | March 2015 | 0% or 4.3% | (iv) |
| RMB80,000,000 | January – August 2015 | from 3.0% to 4.0% | (v) |
| RMB161,000,000 | February – March 2015 | from 3.3% to 3.5% | (vi) |

Notes to the Consolidated Financial Statements

27. STRUCTURED DEPOSITS(Cont'd)

Notes:

- (i) All the deposits are subject to the option for early termination by issuing banks.
- (ii) The annual coupon rate is dependent on whether the spot rate for conversion of European dollar ("EUR") for US\$ as prevailing in the international foreign exchange market falls within ranges as specified in the relevant agreements during the period from inception date to maturity date of the relevant agreements.
- (iii) The annual coupon rate is dependent on whether the spot rate for conversion of Australian dollar for US\$ as prevailing in the international foreign exchange market falls within ranges as specified in the relevant agreements during the period from inception date to maturity date of the relevant agreements.
- (iv) The annual coupon rate was dependent on whether the spot rate for conversion of RMB for US\$ as prevailing in the international foreign exchange market fell within the range as specified in the relevant agreement during the period from inception date to maturity date of the relevant agreement.
- (v) The annual coupon rate was dependent on whether the spot rate for conversion of US\$ for HK\$ as prevailing in the international foreign exchange market fell within ranges as specified in the relevant agreements during the period from inception date to maturity date of the relevant agreements.
- (vi) The annual coupon rate was dependent on whether 1 month London Inter Bank Offered Rate ("LIBOR") for deposits in US\$ fell within 0% to 3% during the period from inception date to maturity date of the relevant agreements.

At the end of the reporting period, the structured deposits are stated at fair values based on valuation provided by respective counterparties. The fair values are calculated using discounted cash flow analysis based on the applicable yield curves of relevant interest rates and exchange rates. Details are set out in note 38.

28. SHORT-TERM BANK DEPOSITS

The short-term bank deposits carry interests at fixed rates ranging from 1.53% to 3.45% (2014: 3.2% to 3.75%) per annum.

Short-term bank deposits are deposits placed with banks with more than three months to maturity when acquired. Short-term bank deposits are matured within 12 months from the end of the reporting period and are therefore classified as current assets.

29. BANK BALANCES AND CASH

Bank balances carry interests at market rates which range from 0.001% to 5.2% (2014: 0.001% to 5.2%) per annum.

Bank balances are readily convertible into known amounts of cash, subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired.

30. TRADE PAYABLES

The following is an aged analysis of the trade payables presented based on the invoice date at the end of the reporting period:

| | 2015 HK\$'000 | 2014 HK\$'000 |
|-------------------|------------------|------------------|
| Within 90 days | 111,852 | 121,757 |
| 91 to 180 days | 8,462 | 5,420 |
| 181 to 360 days | 2,282 | 3,166 |
| Over 360 days | 6,639 | 5,585 |
| | 129,235 | 135,928 |
| Accrued purchases | 181,456 | 186,581 |
| | 310,691 | 322,509 |

The average credit period on purchases of goods is 90 days. The Group has financial risk management policies in place to ensure that all payables are within the credit timeframe.

31. AMOUNT DUE TO AN ASSOCIATE

The amount due to Sherman-Theme (China) Limited, an indirect associate of the Company, is unsecured, interest-free and repayable on demand.

In the opinion of the directors, the indirect associate is not material to the Group for both years and therefore no further information for the associate is disclosed.

| Unsecured | 1,350,510 | 2,146,604 |
| | 1,364,930 | 2,194,906 |
| Carrying amount repayable (<i>Note i</i>): | | |
| Within one year | 1,145,750 | 1,840,566 |
| More than one year, but not exceeding two years | 159,180 | 135,160 |
| More than two years, but not exceeding five years | 60,000 | 219,180 |
| | 1,364,930 | 2,194,906 |
| Less: Amount due within one year shown under current liabilities (<i>Note ii</i>) | 1,364,930 | 2,194,906 |
| Amount shown under non-current liabilities | – | – |

Notes:

- (i) The amounts due are based on scheduled repayment dates set out in the loan agreements.
- (ii) Included in HK\$1,364,930,000 (2014: HK\$2,194,906,000) is HK\$1,137,369,000 (2014: HK\$1,453,080,000) bank borrowings that are repayable within one year and HK\$219,180,000 (2014: HK\$354,340,000) bank borrowings that are not repayable within one year pursuant to the scheduled repayment dates set out in the loan agreements but the loan agreements contain a repayable on demand clause.

32. BANK BORROWINGS AND BANK OVERDRAFT (Cont'd)

The ranges of effective interest rates (which are same as the contracted interest rates) on the Group's bank borrowings and bank overdraft are as follows:

| | 2015 | 2014 |
|-------------------------------|---------------|---------------|
| Effective interest rates: | | |
| Fixed-rate bank borrowings | N/A | 2.04% – 2.10% |
| Variable-rate bank borrowings | 1.02% – 3.43% | 1.33% – 3.23% |

The Group undertakes to the banks that structured deposits of HK\$550,246,000 (2014: HK\$1,164,792,000) and short-term bank deposits of HK\$201,402,000 (2014: HK\$551,331,000) have to be maintained with the respective banks during the life of certain bank borrowings.

During the year, the Group discounted bills receivable with recourse in aggregated amount of HK\$169,053,000 (2014: HK\$204,380,000) to banks for short term financing. As at 31 December 2015, the associated borrowings amounted to HK\$10,249,000 (2014: HK\$23,413,000). The relevant cash flows of these borrowings are presented as operating cash flows in the consolidated statement of cash flows as management considers the cash flows are, in substance, the receipts from trade customers.

33. DEFERRED TAXATION

The followings are the major deferred tax assets and liabilities recognised and movements thereon during the current and prior years:

| | Deferred tax assets | | | | | | Total |

Under the PRC law, withholding tax is imposed on dividends declared to non-residents in respect of profits earned by subsidiaries in the PRC from 1 January 2008 onwards. Deferred tax liabilities have not been provided for in the consolidated financial statements in respect of the temporary differences attributable to the profits earned by subsidiaries in the PRC amounting to HK\$62,342,000 (2014: nil) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

The ultimate realisation of the above deferred tax assets depends principally on certain subsidiaries in the PRC achieving profitability and generating sufficient taxable profits to utilise the underlying deferred tax assets. Based on the taxable profit and loss projections of these businesses, it is more probable that the Group can fully utilise the deferred tax assets recognised. It may be necessary for some or all of these deferred tax assets to be reduced and charged to profit or loss if there is a significant adverse change in the projected performance and projected taxable profit of the business.

Notes to the Consolidated Financial Statements

33. DEFERRED TAXATION (Cont'd)

The Group has estimated tax losses arising in Hong Kong of HK\$305,373,000 (2014: HK\$366,796,000), tax losses arising in overseas of HK\$120,169,000 (2014: HK\$89,173,000) and allowance for amounts due from joint ventures of HK\$76,000 (2014: HK\$13,451,000) for offsetting against future taxable profits of the companies in which the losses arose. No deferred tax asset has been recognised in respect of the tax losses due to unpredictability of future profit streams. Included in unrecognised tax losses are losses of HK\$52,793,000 (2014: HK\$43,378,000) that will expire in 2028 to 2035. Other tax losses may be carried forward indefinitely.

34. PROVISION FOR LONG SERVICE PAYMENTS

| | HK\$'000 |
|---|--------------|
| At 1 January 2014 | 3,431 |
| Amount utilised during the year | (16) |
| Eliminated on disposal of subsidiaries | (112) |
| At 31 December 2014 | 3,303 |
| Amount utilised during the year | (18) |
| Acquired on acquisition of subsidiaries | 4 |
| At 31 December 2015 | 3,289 |

The Group provides for the probable future long service payments expected to be made to employees under the Hong Kong Employment Ordinance. The provision represents management's best estimate of the probable future payments which have been earned by the employees from their service to the Group up to the end of the reporting period.

35. SHARE CAPITAL

36. SHARE OPTION SCHEME

The purposes of the share option scheme adopted on 30 May 2012 (the “New Scheme”) are to (a) provide alternative recognition to the contributions or services of employees, executives and non-executive directors; (b) strengthen the relationship between the Group and its employees and executives; (c) attract and retain key and important employees and executives; and (d) motivate employees and executives to strive for future development and expansion of the Group. Eligible participants of the New Scheme include the directors and employees of the Group. Unless otherwise terminated or amended, the New Scheme will remain in force for 10 years ending 29 May 2022.

Pursuant to the New Scheme, the total number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the New Scheme and any other schemes shall not exceed 30% of the issued share capital of the Company from time to time. The total number of shares issued and to be issued upon exercise of options granted in accordance with the New Scheme to each eligible participant in any 12-month period must not exceed 1% of the shares of the Company in issue. The offer of a grant of share option may be accepted within 28 days from the date of the offer with no consideration being payable by the grantee. The exercisable period of the share options granted is determinable by the directors, but no later than 10 years from the date of the offer. The subscription price for the shares in respect of which options are granted is determinable by directors, but must be at least the highest of (1) the closing price of the Company’s shares as stated in the Stock Exchange’s daily quotations sheet on the date of grant of the option; (2) the average closing price of the Company’s shares as stated in the Stock Exchange’s daily quotations sheets for the five business days immediately preceding the date of grant of the option; and (3) the par value of the Company’s shares.

Share options do not confer rights on the holders to dividends or to vote at shareholders’ meeting.

No share options were granted, exercised, cancelled or lapsed under the New Scheme during the year nor outstanding as at the end of the reporting period.

37. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group’s overall strategy remains unchanged from prior year.

The capital structure of the Group consists of debt, which includes the bank borrowings disclosed in note 32, net of cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital, reserves and accumulated profits.

The directors of the Company review the capital structure on a continuous basis. As part of this review, the directors consider the cost of capital. The Group will balance its overall capital structure through the payment of dividends, share buy-backs, issuance of new shares as well as raising new debts or the redemption of existing debts.

Financial risk management objectives and policies

The Group's major financial instruments include trade and bills receivables, deposits and other receivables, derivative financial instruments, amounts due from and to joint ventures, structured deposits, short-term bank deposits, bank balances and cash, trade payables, other payables and bank borrowings. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Currency risk

Several subsidiaries of the Company have foreign currency sales and purchases. The carrying amounts of major foreign currency denominated monetary assets and monetary liabilities (including trade and bills receivables, deposits and other receivables, short-term bank deposits, bank balances and cash, trade payables, other payables, bank borrowings and foreign currency denominated intra group balances) which expose the Group to foreign currency risk at the end of the reporting period are as follows:

| | Assets | | Liabilities | |
|------|------------------|------------------|------------------|------------------|

38. FINANCIAL INSTRUMENTS (Cont'd)

Financial risk management objectives and policies (Cont'd)

Market risk (Cont'd)

Currency risk (Cont'd)

The Group has entered into certain foreign exchange forward contracts as set out in note 21 to hedge against the potential currency exposure arising on the forecast sales to external parties. It is the Group's policy to negotiate the terms of the foreign exchange forward contracts to match the terms of the hedged item to maximise hedge effectiveness. In addition, the Group is also exposed to foreign currency risks arising from knock out forward contracts, capped forward contracts and foreign exchange forward contract, which are not subject to cash flow hedges at the end of the reporting period.

The Group also entered into certain structured deposits as set out in note 27, of which the coupon rate is dependent on exchange rates of US\$, RMB, HK\$, Australian dollar and EUR. The directors of the Company consider that currency risk arising from structured deposits is insignificant.

Sensitivity analysis

The following table details the Group's sensitivity to a 5% (2014: 5%) strengthening in the group entities' functional currency against the relevant foreign currencies except for the Group's exposure in US\$ relative to HK\$ since directors of the Company consider HK\$ is pegged to US\$ and the exposure related to US\$ is insignificant. 5% (2014: 5%) is the sensitivity rate used which represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items, foreign exchange forward contracts, knock out forward contracts and capped forward contracts, and adjusts their translation at the end of the reporting period for a 5% (2014: 5%) change in foreign currency rates and forward exchange rates. A positive/negative number below indicates an increase/decrease in post-tax profit for the year and hedging reserve.

| | Impact on HK\$ | | Impact on US\$ | | Impact on RMB | |
|---------------------------|------------------|------------------|------------------|------------------|------------------|------------------|
| | 2015 HK\$'000 | 2014 HK\$'000 | 2015 HK\$'000 | 2014 HK\$'000 | 2015 HK\$'000 | 2014 HK\$'000 |
| Profit or loss (Note i) | (9) | 2,045 | 687 | 37,170 | (3,584) | (4,276) |
| Hedging reserve (Note ii) | - | - | 109,149 | 136,360 | - | - |

Notes:

- (i) This is mainly attributable to the exposure outstanding on foreign currencies denominated monetary items, knock out forward contracts, capped forward contracts and foreign exchange forward contract, which are not subject to cash flow hedges at the end of the reporting period.
- (ii) This is a result of changes in fair value of foreign exchange forward contracts designated as cash flow hedges in relation to the Group's foreign currency forecast sales.

In management's opinion, the sensitivity analysis is unrepresentative of the inherent currency risk as the exposure at the end of the reporting period does not reflect the exposure during the year.

38. FINANCIAL INSTRUMENTS (Cont'd)

Financial risk management objectives and policies (Cont'd)

Market risk (Cont'd)

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate bank deposits, loan receivables and fixed-rate bank borrowings. The Group is also exposed to cash flow interest rate risk relating to the variable-rate bank borrowings, structured deposits and derivative financial instruments including receive-floating and pay-fixed interest rate swaps and dual currency interest rate swap, which mainly concentrated on fluctuation of HIBOR and LIBOR. Management monitors interest rate exposure and considers hedging significant interest rate exposure should the need arise. The critical terms of these interest rate swaps are similar to those of hedged borrowings. These interest rate swaps are designated as effective hedging instruments and hedge accounting is used (see note 21 for details).

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for both derivative and non-derivative instruments. The analysis includes the variable-rate bank borrowings, assuming that outstanding balances at the end of the reporting period are outstanding for the whole year, and interest rate swaps. A 50 basis point (2014: 50 basis point) increase or decrease is used which represents management's assessment of the reasonably possible change in interest rates. The sensitivity analysis below indicates 50 basis points (2014: 50 basis point) increase in interest rates. A negative number below indicates a decrease in post-tax profit.

| | 2015 HK\$'000 | 2014 HK\$'000 |
|---------------------------|------------------|------------------|
| Profit or loss (Note i) | (4,626) | (7,263) |
| Hedging reserve (Note ii) | 1,692 | 1,518 |

Notes:

- (i) This is mainly attributable to the Group's exposure to interest rates on its variable-rate bank borrowings and interest swap not under hedge accounting outstanding at the end of the reporting period.
- (ii) This is a result of changes in fair values of interest rate swaps designated as cash flow hedges in relation to the Group's variable-rate bank borrowings.

In management's opinion, the sensitivity analysis is unrepresentative of the interest rate risk as the exposure at the end of the reporting period does not reflect the exposure during the year.

38. FINANCIAL INSTRUMENTS (Cont'd)

Financial risk management objectives and policies (Cont'd)

Credit risk

The Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to perform an obligation by the counterparties arising from the carrying amounts of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, management reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

Other than concentration of credit risk on the major customers, joint venturers, structured deposits and liquid funds deposited with several banks and insurance company with high credit ratings as well as counterparties with whom the Group enters into derivative financial instruments, the Group has no significant concentration of credit risk, with exposure spread over a number of counterparties and customers, spread across geographical areas. In order to minimise the credit risk from the major customers, the terms of payment of the major customers are under bank's letter of credit. The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. Management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The Group relies on bank borrowings as a significant source of liquidity. As at 31 December 2015, the Group has available unutilised banking facilities of approximately HK\$1,942 million (2014: HK\$2,004 million).

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank borrowings with a repayable on demand clause are included in the earliest time band regardless of the probability of the banks which choose to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

Liquidity risk (Cont'd)

The table includes both interest and principal cash flows. To the extent that interest flows are floating rates, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

In addition, the following table details the Group's liquidity analysis for its derivative financial instruments. The tables have been drawn up based on the undiscounted contractual net cash outflows on derivative instruments that settle on a net basis, and the undiscounted gross (inflows) and outflows on those derivatives that require gross settlement. When the amount payable is not fixed, the amount disclosed has been determined by reference to the projected interest rates as illustrated by the yield curves existing at the end of the reporting period. The liquidity analysis for the Group's derivative financial instruments are prepared based on the contractual maturities as management considers that the contractual maturities are essential for an understanding of the timing of the cash flows of derivatives.

Liquidity tables (Cont'd)

The table below is the maturity analysis of bank borrowings, which includes interest payments computed using contractual rates, based on agreed scheduled repayments set out in the loan agreements irrespective of whether the terms of the bank borrowings contain a repayable on demand clause. As a result, these amounts are greater than the amounts disclosed in the "on demand or less than 3 months" time band in the maturity analysis above. Taking into account the Group's financial position, the directors of the Company do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The directors believe that such bank borrowings will be repaid in accordance with the scheduled repayment dates set out in the loan agreements.

| | Weighted average interest rate % | Less than 3 months HK\$'000 | 3 months to 1 year HK\$'000 | Over 1 year HK\$'000 | Total undiscounted cash flows HK\$'000 | Carrying amount HK\$'000 |

38. FINANCIAL INSTRUMENTS (Cont'd)

Fair value measurements of financial instruments

Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis

The Group's derivative financial instruments and structured deposits are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used), as well as the level of the fair value hierarchy into which the fair value measurements are categorised (levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.

For valuation technique using discounted cash flows, the discount rates used take into consideration the credit risk of the relevant counterparties of the contracts or the Group, as appropriate.

| Financial assets/ financial liabilities | Fair value as at | | Fair value hierarchy | Valuation technique(s) and key input(s) |
|--|--------------------------------------|---|-------------------------|---|
| | 31 December 2015 | 31 December 2014 | | |
| Foreign exchange forward contracts | Liabilities – HK\$127,775,000 | Assets – HK\$24,905,000 Liabilities – HK\$30,363,000 | Level 2 | Valuation technique: Discounted cash flow. Key inputs: Forward exchange rates, contracted exchange rates and discount rates. |
| Capped forward contracts | Liability – HK\$8,583,000 | Asset – HK\$289,000 Liabilities – HK\$8,753,000 | Level 2 | Valuation techniques: Discounted cash flow and option pricing model. Key inputs: Forward exchange rates, contracted exchange rates and discount rates and volatility of exchange rate of RMB vs US\$. |
| Knock out forward contracts | Liabilities – HK\$30,589,000 | Liabilities – HK\$42,778,000 | Level 2 | Valuation techniques: Discounted cash flow and option pricing model. Key inputs: Forward exchange rates, contracted exchange rates and discount rates and volatility of exchange rate of RMB vs US\$. |

39. FINANCIAL ASSETS AND FINANCIAL LIABILITIES SUBJECT TO OFFSETTING ENFORCEABLE MASTER NETTING ARRANGEMENTS

The Group has entered into certain derivative transactions that are covered by the International Swaps and Derivatives Association Master Netting Agreements (“ISDA Agreements”) signed with various banks. These derivative instruments are not offset in the consolidated statement of financial position as the ISDA Agreements are in place with a right of set off only in the event of default, insolvency or bankruptcy so that the Group currently has no legally enforceable right to set off the recognised amounts.

40. TRANSFERS OF FINANCIAL ASSETS

The following is the Group's bills receivable as at 31 December 2015 and 2014 that are transferred to banks by discounting bills receivable on a full recourse basis. If the bills receivable are not paid on maturity, the banks have the rights to request the Group to pay the unsettled balances. As the Group has not transferred the significant risks and rewards relating to the bills receivable, it continues to recognise the full carrying amount of the bills receivable and has recognised the cash received on the transfer as a secured borrowing (see note 32). The bills receivable are carried at amortised cost in the Group's consolidated statement of financial position.

| | 2015 HK\$'000 | 2014 HK\$'000 |
|---|------------------|------------------|
| Carrying amount of transferred assets | 10,249 | 23,413 |
| Carrying amount of associated liabilities | (10,249) | (23,413) |

41. PLEDGE OF ASSETS

At the end of the reporting period, in addition to the bills receivable discounted to banks as disclosed in note 40, the Group has pledged the following assets to secure credit facilities granted to the Group:

| | 2015 HK\$'000 | 2014 HK\$'000 |
|-------------------|------------------|------------------|
| Trade receivables | 8,867 | 19,040 |

42. OPERATING LEASES

(a) The Group as lessor

The Group leases its investment properties under operating lease arrangements with average lease term of one to two years.

At the end of the reporting period, the Group has contracted with tenants for the following future minimum lease payments:

| | 2015 HK\$'000 | 2014 HK\$'000 |
|---|------------------|------------------|
| Within one year | 26,186 | 23,893 |
| In the second to fifth years, inclusive | 62,764 | 86,480 |
| Over five years | 20 | 44,553 |
| | 88,970 | 154,926 |

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

42. OPERATING LEASES (Cont'd)

(b) The Group as lessee

The Group has commitments for future minimum lease payments under non-cancellable operating leases which fall due as follows:

| | 2015 HK\$'000 | 2014 HK\$'000 |
|---|------------------|------------------|
| Within one year | 18,758 | 13,708 |
| In the second to fifth years, inclusive | 29,408 | 21,206 |
| Over five years | 1,022 | 1,948 |
| | 49,188 | 36,862 |

Operating lease payments represent rental payable by the Group for certain of its office premises, retail shops and factories. Leases are negotiated for terms ranging from one to ten years and rental are fixed over the lease terms. In addition to the fixed rentals which are disclosed above, pursuant to the terms of certain lease agreements, the Group has to pay a rental based on certain percentage of the gross sales of the relevant shop.

43. CAPITAL COMMITMENTS

| | 2015 HK\$'000 | 2014 HK\$'000 |
|---|------------------|------------------|
| Capital expenditure in respect of the acquisition of property, plant and equipment contracted for but not provided for in the consolidated financial statements | 5,047 | 1,067 |

44. RETIREMENT BENEFITS SCHEMES

The Group operates a mandatory provident fund scheme (the "MPF Scheme") for all qualifying employees of the Group in Hong Kong. The Group follows the minimum contribution requirement of 5% of eligible employees' relevant aggregated income with a cap of HK\$1,250 per month and revised to HK\$1,500 per month after 1 June 2014. The assets of the MPF Scheme are held separately from those of the Group, in funds under the control of the trustees. The employees of the subsidiaries in the PRC are members of retirement benefits schemes operated by the PRC government. The contributions are charged to the profit or loss as incurred. The relevant PRC subsidiaries are required to make contributions to the state retirement schemes in the PRC based on a certain percentage of the monthly salaries of their current employees to fund the benefits. The employees are entitled to retirement pension calculated with reference to their basic salaries on retirement and their length of service in accordance with the relevant government regulations. The PRC government is responsible for the pension liability to these retired staff.

46. DEEMED ACQUISITION/DISPOSAL OF SUBSIDIARIES (Cont'd)

Year ended 31 December 2015

Fair value of assets and liabilities of New Media Group at the date when the Group obtained control are as follows:

| | HK\$'000 |
|--|-----------------|
| Property, plant and equipment | 468 |
| Interest in a joint venture | 7,938 |
| Inventories | 4,110 |
| Trade receivables | 34,809 |
| Deposits, prepayments and other receivables | 646 |
| Amount due from a joint venture | 18,170 |
| Amounts due from the Group | 33,887 |
| Bank balances and cash | 5,156 |
| Amounts due to the Group | (145,570) |
| Trade payables | (3,178) |
| Other payables and accruals | (10,668) |
| Provision for long service payments | (4) |
| Net liabilities | (54,236) |
| Net cash inflow from deemed acquisition of New Media Group: | |
| Cash and cash equivalents acquired | 5,156 |

The fair value of trade receivables, deposits, prepayments and other receivables, and amounts due from a joint venture and the Group amounted to HK\$34,809,000, HK\$646,000, HK\$18,170,000 and HK\$33,887,000, respectively at the date when the Group obtained control over New Media Group. Based on best estimation by the directors, there is no contractual cash flows not expected to be collected at acquisition date.

Goodwill arising on deemed acquisition of New Media Group:

| | |
|---------------------------------|---------------|
| Consideration transferred | – |
| Less: Net liabilities acquired | 54,236 |
| Plus: Non-controlling interests | (18,983) |
| | 35,253 |

The non-controlling interests (35%) in New Media Group recognised at the acquisition date was measured by reference to their respective proportionate share of the fair value of assets and liabilities of New Media Group.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

46. DEEMED ACQUISITION/DISPOSAL OF SUBSIDIARIES (Cont'd)

Year ended 31 December 2015 (Cont'd)

The recoverable amount of New Media Group as a cash-generating unit of the retailing of garments business is determined based on the expected future cash flow from its business. New Media Group has been making continuous losses and the directors estimated that, based on the cash flow projection of the business, New Media Group would not reverse the loss situation in the foreseeable future. Impairment loss on the goodwill is therefore fully recognised.

| | |
|---|---------------|
| Net loss arising on deemed acquisition of New Media Group: | |
| Impairment loss recognised on goodwill | 35,253 |
| Less: Reversal of impairment loss recognised on amounts due from New Media Group | (13,375) |
| | 21,878 |

Information about the assets and liabilities of New Media Group as at 1 January 2015 and its revenue and results of operations from 1 January 2015 to 19 November 2015 are set out in note 18.

47. CONTINGENT LIABILITIES

In addition to the tax audit on certain group companies as disclosed in note 10, the Group has the following contingent liabilities:

As mentioned in note 18, there were disputes amongst the Group, Hansen, Ms. Leong and certain directors of the Company and several legal proceedings are taking place. The aforesaid parties in the action have agreed to generally extend the deadlines of filing various documents with court. Given that the evidence is still at an early stage, in the opinion of director, the ultimate outcome is unable to be determined and no provision has been made accordingly.

In addition, as set out in note 25, there is an ongoing enquiry of customs duty raised by Shaoxing City of Zhejiang Province. Subsequent to the end of the reporting period, a subsidiary of the Group received a statement of charges from the People's Procuratorate of the Shaoxing City of Zhejiang Province (the "Statement of Charges") regarding the aforesaid case. After seeking advices from the legal and tax professionals, the PRC counsel has advised that the facts set out in the Statement of Charges were unclear with insufficient evidence to uphold a conviction. The directors consider that the claims included in the Statement of Charges are without merit and the subsidiary has strong grounds to defend. Accordingly, no provision is considered necessary by the directors to be made in the consolidated financial statements.

Notes to the Consolidated Financial Statements

Notes:

- (i) These companies are registered as a wholly-owned foreign enterprise.
- (ii) The companies were set up during the year ended 31 December 2015.
- (iii) These companies are subsidiaries of High Fashion New Media Corporation Limited which has been accounted for as a joint venture of the Group on 11 September 2014 with control being re-established on 19 November 2015. Details set out in notes 18 and 46, respectively.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

48. PARTICULARS OF PRINCIPAL SUBSIDIARIES (Cont'd)

High Fashion Apparel Limited is a directly held wholly owned subsidiary of the Company. Except for High Fashion Apparel Limited, all subsidiaries listed above are indirectly held by the Company.

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results or assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

At the end of the reporting period, the Company has other subsidiaries that are not material to the Group. A majority of these subsidiaries operate in Hong Kong, PRC and BVI. The principal activities of these subsidiaries are summarised as follows:

| Principal activities | Place of incorporation or registration/ operations | Number of subsidiaries | |
|----------------------|--|------------------------|------|
| | | 2015 | 2014 |
| Investment holding | Hong Kong | 11 | 7 |
| | BVI | 2 | 2 |
| | | 13 | 9 |
| Inactive | Hong Kong | 19 | 21 |
| | PRC | 3 | 1 |
| | BVI | 8 | 7 |
| | | 30 | 29 |
| | | 43 | 38 |

In the opinion of the directors, there is no subsidiary that has non-controlling interest that is individually material to the Group for both years and therefore no further information is disclosed for these non-wholly owned subsidiaries.

None of the subsidiaries had issued any debt securities at the end of the year.
